CAO Report

Chief Administrative Officer Shirley Bremer reviewed the CAO Report with Council. Highlights of the report included the following:

- We have been working over the Month of May to put together the final 2017 budget. This has been a difficult year as the substantial fall in our assessment base has resulted in another significant fall in revenue. Despite this we do have a substantial capital program to fund primarily due to the Munson Fire Hall project. Some tax increases, spending reductions and a reserve draw are being proposed to fund gap in funding this year.
- The flooding situation on the north side of Rumsey has escalated this spring to the point where action to protect properties and reduce the water level are now required. We have purchased equipment and acquired the licence in order to pump the water to a location we have identified south of the Hamlet.
- The Alberta Government has announced legislation which would allow them to lend the Orphan Well Association \$235 million in order to speed up the reclamation of the growing number of abandoned oil and gas wells in Alberta.
- Ross's retirement party on April 29<sup>th</sup> was a huge success and Ross was pleasantly surprised by the show of support from the Staff, Council and the Community.

- The Starland County Annual Safety Day was held on May 5<sup>th</sup>. Presentations on distracted driving and hazard identification were well received.

Attendance of PW Supervisor Pratt and PW Report

At 10:00 a.m. Public Works Supervisor Al Pratt attended the meeting and reviewed his Public Works Report with Council. Highlights of his report included the following:

- The Public Works crew has been busy with pumping water in Rumsey, hauling material to the graders, working on the Munson Hall and patching the light oil roads.
- Grader Operators have been maintaining their roads and backroads and preparing for dust control to be applied to several residences.
- Gary, Kevin and Thomas have been doing regular maintenance on the heavy duty equipment and CVIPs.
- Buck continues with regular maintenance on the county light duty fleet and CVIPs.
- Brenda has been doing permits for service rigs and dealing with dog complaints primarily in Craigmyle.
- Al has been working on safe work practices, general paperwork, organizing the Rumsey pumping and attending safety meetings and training.

**C17-096**  
**Gravel Days**

**[C17-096] MOVED BY COUNCILLOR MARSHALL**

**that Starland County Gravel Days be set for July 12<sup>th</sup> and 13<sup>th</sup> at the Mixcor Pit and for July 14<sup>th</sup> at the Scollard Pit. Sales are to be done in accordance with Policy 320-5.**

**CARRIED UNANIMOUSLY.**

Departure

At 11:00 a.m. Public Works Supervisor Pratt departed from the meeting.

Attendance of MS Manager Riep, and the Morrin Grade 6 Students and MS Report

At 11:02 a.m. Municipal Services Manager Riep and the students of the Morrin Grade 6 class attended the meeting. The students were introduced to Council and listened while Glen presented the Municipal Services Report. Highlights of his report included the following:

- Alberta Environment Compliance for water have had some issues lately. We have failed our Bacteriological sample tests due to a failure of the Greyhound service to deliver samples within the 24 hour designated time period. We also failed THM testing due to the high presence of these molecules coming from the Drumheller water plant this spring.
- The MPC has approved the development of a data processing facility by Bitfury for the location of equipment near the Michichi substation.
- The campgrounds were all up and running in time for the May long weekend. The sites were busy especially at the River while there were still some power sites available at Michichi. In the past parties have been a problem at the Morrin Bridge site however since we introduced the restricted access and gate surveillance these problems have mostly gone away.
- Glen attended the Disaster Forum in Banff earlier in May. The conference had a significant focus on the Fort McMurray disaster and a number of different aspects of the event.
- We installed a "Tiger Dam" emergency water retention system in order to protect residential property located along the north boundary of Rumsey. The dam system is on loan from Alberta Emergency Management.

Departure

At 11:45 a.m. Municipal Services Manager Riep departed from the meeting.

Departure

At 12:00 p.m. the Morrin Grade 6 class departed from the meeting.

Budget Council was presented with a copy of the 2017 Operating and Capital Budgets. CAO Bremer noted that this year's budget was especially challenging to put together due to the large fall in assessment on oil and gas properties. To respond to this Administration is proposing tax hikes of between 2% for Farmland and Residential and 3.89% for Non Residential properties. This combined with a draw from reserves and overall spending reduction will maintain a fairly consistent tax rate while also allowing us to fund major projects such as the Munson Fire Hall and the upcoming Public Works Shop. Shirley noted that because assessments have dropped so substantially the mill rates required to fund the Alberta School and Drumheller Seniors Requisition will also be rising.
